

Changes I would like to see in Wilmslow in the future

Global Warming

In the future, I hope that most of the houses in Wilmslow will have Solar Panels on the roof to help prevent further damage from climate change. Also, I would like more trees planted, and more areas of woodland because it would help get rid of greenhouse gases.

Art

I think there should be more places where people have permission to do graffiti. Not bad wordy graffiti, but graffiti art where the artist uses spray paint to change a boring blank wall into a marvellous masterpiece of beautiful pictures. It would make Wilmslow seem so bright and colourful.

Shops

I hope there will be one of those old-fashioned sweet shops in Wilmslow, the ones with lots of little jars full of sweets. This is because I've been to one before, and I thought it was great! Also, I would like a chocolate shop because it would be very popular as most people love chocolate!

Music

I think an improvement in Wilmslow could be that there are more music festivals for children and adults to take part in and watch. This is because you feel very proud of yourself when you've learnt a new instrument, and people might want to show off their talent in public.
